Elliott Absorbent Products

Environmental Statement

Elliott Absorbent Products Limited continually endeavour to improve our company's environmental impact by frequently addressing the following points:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible, improving continually across all its sites.
- Minimise toxic emissions through the use of electric FLT Fleet and Electronically driven Machinery.
- Promote the use of bio-degradable alternatives to our products and recycle as much of our packaging waste as is commercially viable.
- Use only paper sourced from forests kite marked under the Forestry Sustainability Scheme (FSC).
- Source and manufacture products that utilize less material for the same or improved effect wherever possible.
- Meet and exceed all the environmental legislation that relates to our company.
